***ampm* and Thorntons Launch ‘Snack & Save’ Summer Promotion to Deliver More Value for Guests**

(Louisville, KY – July 1, 2026) – *ampm* and Thorntons have launched Snack & Save, a summer promotion that helps earnify™ members save on fuel when they buy qualifying snacks and beverages in-store at participating locations. Available during the busy summer travel season, the promotion gives guests an easy way to get more value from everyday purchases, with more choices, more deals, and more savings at the pump.

The Snack and Save promotion is available for a limited time at participating *ampm* and Thorntons locations where earnify™, bp’s loyalty and rewards program, is offered. Through earnify™, members can earn an additional 5 cents per gallon* of fuel savings with qualifying snack and beverage purchases, delivering even more value during the busy summer travel season. The promotion is available at select locations in Atlanta, New York, Ohio, Illinois, Indiana, Tennessee, Florida, Oregon, Washington, and across Northern California.

“We’re always looking for new ways to deliver meaningful value for our guests, especially during the summer travel season when every dollar matters,” said Greg Ruffoni, bp’s head of US retail operations. “Snack & Save combines the products our guests already enjoy with fuel rewards they can use right away, creating a simple and rewarding experience while highlighting the strong partnerships we have with our supplier partners.”

The promotion reflects *ampm* and Thorntons continued focus on delivering everyday value through earnify™ while giving guests more ways to save on the products they already enjoy. By bringing together popular snacks, beverages, and fuel rewards, Snack & Save helps make summer travel a little more rewarding for guests across participating locations.
